FIRST OFFICE ACTION --- AN EX PARTE QUAYLE ACTION

1. All claims are allowable except the following amendments are required:

Claim 8, lines 1-2, the phrase "said direct current" lacks proper antecedent basis. The phrase should be changed to --said direct current power--.

Claim 24, line 1, the preamble "A charging system" is inconsistent with the preamble of claim 18. The preamble should be changed to --A flywheel uninterruptible power source--.

Claim 25, lines 1-2, the phrase "said flywheel power system" lacks antecedent basis. Which system is a "flywheel power system" is unclear because claim 18 only defines a "bearing system" and a "charging system". Applicant may amend by changing "said flywheel power system" to --said flywheel--.

- 2. The claims are allowable because no prior art teaches a "switching regulation" as claimed. The switching regulation is shown in applicant's Fig. 3, the switching triac 46, for example.
- 3. This application is in condition for allowance except for the following formal matters: see paragraph 1 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

- 4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- 5. Any inquiry concerning this communication should be directed to Bentsu Ro at telephone number (703) 308-3656.
